

Hardware & Software Requirements

	Amicus Attorney Application Server	Workstation with Offline Components	Workstation
Processor	RECOMMENDED: 2 GHz or higher MINIMUM: 1.5 GHz with 512K cache	MINIMUM: 1.5 GHz with 512K cache	MINIMUM: 1 GHz
RAM	RECOMMENDED: depends on firm size MINIMUM: 2 GB	RECOMMENDED: 2 GB MINIMUM: 1 GB or higher	RECOMMENDED: 1 GB or higher MINIMUM: 512 MB
Hard Disk Drive	MINIMUM: 2 GB free space <i>(actual space required depends on database size)</i> Fast drive (7200 RPM minimum) C: drive for converting from Version 4 or 5 or Small Firm Edition	MINIMUM: 1 GB free space <i>(actual space required depends on database size)</i>	MINIMUM: 200 MB free space
Display	1024x768 or higher at 32-bit color	1024x768 or higher at 32-bit color	1024x768 or higher at 32-bit color
Power	UPS (Uninterruptible Power Supply)		
Operating System ¹	RECOMMENDED: Windows Server 2003 Windows Server 2008/2003/2000 Small Business Server 2008/2003 Vista (Business/Ultimate) XP Pro <i>(supports up to 5 Amicus users only)</i>	RECOMMENDED: Windows XP Pro Windows Server 2008/2003/2000 Small Business Server 2008/2003 Vista (Business/Ultimate) XP Pro 2000 Pro	RECOMMENDED: Windows XP Pro Windows Server 2008/2003/2000 Small Business Server 2008/2003 Vista (Home/Business/Ultimate) XP (Pro/Home/Media Center) 2000 Pro
Other ²	SQL Server 2005 (SP3 recommended) Internet Explorer 6.x or higher .NET Framework 2.0 RECOMMENDED: NTFS file system (rather than FAT32), for general security and full functionality of Amicus.	SQL Server 2005 (SP3 recommended) Express Edition (automatically installed) Internet Explorer 6.x or higher .NET Framework 2.0	Internet Explorer 6.x or higher .NET Framework 2.0
Network	<i>To support workstations over a Local Network:</i> RECOMMENDED: 100Base-T, MIN: 10Base-T For wireless access, we recommend 802.11g or faster. Wireless networks must be of high quality and reliability. TCP/IP Network Protocol and Client for Microsoft Networks. If using subnetworks, install the Server(s) and all workstations in the same subnet.	Network connection to Amicus Server	Network connection to Amicus Server

- ¹ Both 32-bit and 64-bit editions of Windows are supported.
For Vista, see the *Vista Compatibility Statement* for special considerations.
Offline Components may not be installed on the computer used as the Amicus Attorney Application Server.
- ² 64-bit editions of SQL Server are not supported.

- **Running on a Stand-Alone Computer**—It is possible to run Amicus Attorney in a single user environment. Requirements are the same as a Workstation with Offline except that SQL Server 2005 Workgroup or Standard Edition is required.
- **Other Applications**—The requirements in this document are for running Amicus Attorney. If running additional applications at the same time, ensure that the computer has sufficient resources for those other applications as well.
- **Firewalls**—Ensure that Amicus Attorney (and SQL Server or SQL Server Express, as applicable) are not blocked at the Application Server and Offline Workstations.
- **System Check**—When installing Amicus Server or Workstation Offline components, the Installer will perform a System Check to ensure that your machine meets requirements.
- **Terminal Server Network**—Amicus Attorney can be used in a terminal server environment. The terminal server needs a very fast processor. Required for *each terminal user*: a minimum of 256 MB RAM (512 MB recommended).
- **Novell Network**—A Novell Netware File Server can be used for storing shared documents, backups, etc. but the Amicus applications must be installed under Windows.
- **Offline Components**—Offline Components cannot be installed on your Amicus Attorney Application Server.
- **Service Packs**—The latest Service Packs for Windows, SQL Server, and Internet Explorer are required. In general, we recommend that you install the latest service packs available for supported versions of the third-party products.

Database Software

- **Microsoft SQL Server**—The following SQL Server 2005 Editions can be used to host your Amicus Server Database: Workgroup, Standard, and Enterprise. Note that neither SQL Server 2005 Express Edition nor 64-bit Editions are supported for use as your main Amicus database. (However, Express Edition is used to host the user's Amicus Offline database, and will be automatically installed on the Amicus Workstation during Offline configuration.)
- The Amicus database may reside on a different computer from the Amicus Application Server—this is called a *split install*. These servers must reside in the same subnet and domain.
- **Ensure that the latest Service Packs are installed.**

Add-On Product Integrations and Third-Party Links

	Amicus Attorney Application Server	Workstation in Online mode
Amicus Accounting Integration	Amicus Accounting 2009* (available from Gavel & Gown Software Inc.) – <i>may reside on a separate file server</i>	Amicus Accounting 2009* Workstation components
Amicus Mobile Integration	Amicus Mobile Server installed on Amicus Application Server or other Web server computer. For further details, see the <i>Amicus Mobile Requirements</i> document.	<i>For Microsoft Mobile device support:</i> Microsoft ActiveSync 4.5 or higher, or Windows Mobile Device Center (Vista/Server 2008). OTHER REQUIREMENTS: Handheld device running Microsoft Mobile 6 or 5. Or a <u>compatible</u> BlackBerry device. For details, see the <i>Amicus Mobile Requirements</i> document.
PDA Contacts & Calendar Synchronization	(None)	Outlook Contacts & Calendar Link as conduit for integration with handhelds (including Palm). OTHER REQUIREMENTS: Handheld device that synchronizes with Microsoft Outlook.
Outlook E-mail Integration	(None)	Microsoft Outlook 2007*, 2003, or 2002 (XP) (with or without an Exchange Server), is required. POP3 is supported. An Internet e-mail account may be used if other requirements are met.
Outlook Contacts & Calendar Link	(None)	Microsoft Outlook 2007*, 2003, or 2002 (XP) (with or without an Exchange Server), is required. POP3 is supported.
Microsoft Office and Corel WordPerfect Integration	(None)	Microsoft® Office 2007*, 2003, or 2002 (XP), or Corel® WordPerfect® X4*, X3*, 12, 11, or 10.
Document Assembly	(None)	At least one of the following word processors (installed with macro support) is required: - Microsoft Word 2007*, 2003, or 2002 (XP). - Corel WordPerfect X4*, X3*, 12, 11, or 10. Document Assembly with HotDocs® requires HotDocs 2008*, 2007*, 2006, or 2005.
PCLaw Link	PCLaw™ 10*, 9.x* (minimum 9.10c), 8.2, or 7.x (minimum 7.61c)	(None)
QuickBooks Link	QuickBooks® 2009*, 2008*, 2007*, 2006, or 2005 U.S. Pro or U.S. Premier Editions only.	(None)
Timeslips Link	Timeslips® Version 2010*, 2009*, 2008*, 2007, or 2006	(None)
CompuLaw Link	CompuLaw® Court Rules Engine (provided with Amicus Attorney) and CompuLaw Court Rule Sets (available from Gavel & Gown Software)	(None) (For Offline Workstation requirements, see the <i>CompuLaw Link Guide</i> .)
Worldox Link	Worldox® GX (OR-1 or later)	Worldox GX Client

* Asterisks indicate product versions that have been tested with Amicus Attorney Workstations under Windows Vista.

The requirements specified in this document are applicable to the current version of Amicus Attorney 2009 Premium Edition.
