

Amicus Attorney 2010 Small Firm Edition Hardware & Software Requirements

	File Server hosting Amicus Attorney	Workstation with Amicus Attorney
Processor	MINIMUM: 500 MHz Pentium III or compatible RECOMMENDED: 2 GHz Pentium 4 or compatible	MINIMUM: 166 MHz Pentium or compatible RECOMMENDED: 1 GHz Pentium 4 or compatible
RAM	MINIMUM: 128 MB RECOMMENDED: 1 GB or higher	MINIMUM: 128 MB RECOMMENDED: 512 MB or higher
Hard Disk Drive	Space used by the application components: 150 MB Additional disk space is required for your Amicus Attorney database. Another 300 MB of free space is recommended for running the applications efficiently. RECOMMENDED: Fast disk subsystem (7200 rpm)	Space used by the application components: 75 MB Additional disk space is required for your Amicus Attorney local database (e.g., 15 MB based on 250 Contacts and 150 Files). Another 300 MB of free space is recommended for running the applications efficiently.
Video	MINIMUM: 800x600 pixels at 32-bit color RECOMMENDED: 1024x768 pixels at 32-bit color	MINIMUM: 800x600 pixels at 32-bit color RECOMMENDED: 1024x768 pixels at 32-bit color
Operating System	Windows 7 / Server 2008 / SBS 2008 / Vista / Server 2003 / XP Professional <i>(see Notes below)</i> Additionally: Internet Explorer 6.x or higher Latest Service Packs are required. Both 32-bit and 64-bit editions of Windows are supported.	Windows 7 / Server 2008 / Vista / Server 2003 / XP <i>(see Notes below)</i> Additionally: Internet Explorer 6.x or higher Latest Service Packs are required. Both 32-bit and 64-bit editions of Windows are supported.
Network	Windows network To support workstations over a Local Area Network: MINIMUM: 10Base-T, RECOMMENDED: 100Base-T For wireless access, we recommend 802.11g or faster. (Actual network requirements depend on the number of users and the level of activity on the network.)	Network connection to the File Server.
Amicus Accounting Integration	Requires a compatible version of Amicus Accounting 2010. Ensure that your computers are suitable for running both Amicus Accounting and Amicus Attorney. See our website for Amicus Accounting requirements. Integration requires Windows .NET Framework on the Server and Workstations.	

NOTES

Firewall: Firewalls should not prevent the server from being accessible/visible to workstations. If you are running a firewall on the Server, ensure that you configure it to unblock the File and Printer Sharing service.

Microsoft Windows 7 and Vista: Amicus Attorney 2010 and Amicus Accounting 2010 work on Windows 7 and Vista with some exceptions, as noted in the *Windows 7 and Vista Compatibility Statement* available from the Support > Technical Resource Guides page on our website. Note that Processor and RAM requirements for 7 and Vista are considerably higher than those specified in this document for Amicus. Windows 7 Professional, Enterprise, and Ultimate Editions, and Vista Business Edition, are recommended.

Microsoft Windows Home Editions: Home Editions are suitable for Amicus Attorney in a single-user environment with all of the Amicus Attorney files resident on the user's workstation, and for Amicus Attorney Secondary Office workstations. However, Home Edition is designed for the home user. It may not be appropriate in a multi-user business setting. It is not recommended for the server used for your Amicus Attorney. Also note that in a networked environment, an Amicus user using Home Edition would need to reestablish the mapped drive to the server on each Windows startup.

If multiple individuals share the same workstation in a standalone or workgroup environment: Amicus Attorney maintains a local database for maximum performance. Consequently, only one Amicus Attorney office is supported on a single workstation. If other individuals sharing the workstation launch Amicus Attorney, they will be opening that Team Member's Office, not their own, and improper data exchange and synchronization with third party link applications (i.e., Outlook, e-mail, etc.) might occur.

Workstation Network Card: Amicus Attorney passes a tremendous amount of information back and forth over the network. Far more data is communicated than that used by typical word processing, accounting, or e-mail applications that a firm may have used in the past. As a result, Amicus Attorney Small Firm Edition is more exposed to any weaknesses in a firm's network structure than other programs might be. One common cause of network problems is cheap network cards, which can randomly cause data corruption. We highly recommend that you have good quality network cards in every workstation.

Other Applications: The requirements in this document are for running Amicus Attorney. If running additional applications at the same time, ensure that the computer has sufficient resources for those other applications as well.

PDF Documents: Adobe Acrobat Reader 5.0 or higher (or equivalent) is needed for reading PDF format documents.

THIRD-PARTY LINK REQUIREMENTS

Amicus Attorney supports integrations with many third-party products, including the following:

- **CompuLaw:** CompuLaw Date Calculation Software (V10)** and CompuLaw Court Rule Sets
- **HotDocs:** 2009**, 2008*, 2007*, 2006
- **Juris:** 1.42 or higher
- **Outlook:** 2010**, 2007**, 2003, 2002
- **Handheld devices** (including Palm): Devices capable of synchronizing with Microsoft Outlook may utilize the Amicus Attorney-Outlook Contacts & Calendar Synchronization to exchange information between the device and Amicus.
- **Palm OS devices** (direct exchange via Amicus-Palm Link): Palm Desktop and HotSync Manager 4 (later versions are not supported)
- **PaperPort:** 7 or higher
- **PCLaw:** 10**, 9*, 8.2*, 8.x
- **QuickBooks:** 2010**, 2009*, 2008*, 2007* - Pro, Premier, or Enterprise Editions (U.S. versions only)
- **Tabs3:** 9 or higher (with the tbdevice.exe/convascv.exe/wcnvascv.exe utility, available from Software Technology, Inc.)
- **Timeslips:** 2011**, 2010**, 2009*, 2008*
- **Word:** 2010**, 2007**, 2003, 2002 (XP)
Use of Word for Document Assembly requires that Word is installed with macro support.
- **WordPerfect:** X5**, X4**, X3*, 12, 11, 10

* Versions tested under Windows Vista.

** Versions tested under Windows 7 and Vista.

NOTE 1: Technical Support for links with third-party products may be limited based on version support offered for such integrations by the individual third-party vendor.

NOTE 2: Integration with 64-bit third-party applications (including Microsoft Office 2010 64-bit edition) is not supported.
